“The ND alumni network was an integral part of my MBA experience. As a career switcher who knew little about consulting I needed to get up to speed quickly to meet the standards expected at some of my top choice firms. There’s no doubt that the generosity of the alumni network in sharing their time and experiences was a major component of my success in that area.”

“To me, ‘Grow the Good in Business’ means using your platform as a people-focused, ethical business leader to inspire good in your community through the skills and expertise you have. It is not only about joining your company’s CSR program to volunteer with a nonprofit or donating to your company’s annual Christmas fundraiser, but rather it’s how you as a business leader show up for those around you at your job to inspire good, serve others humbly, and lead by example.”
