“The Notre Dame alumni network was an invaluable resource from the moment I stepped on campus. Navigating a career pivot coming out of COVID-19 created a lot of uncertainty and the willingness of alumni to lean in to help me prepare for and navigate the recruiting process was a huge difference maker. Their passion for the university and willingness to give back time and energy supporting current students really sets Mendoza apart.”

“Being an international student and coming from an IT consulting background, switching to a Product manager career was challenging. Most companies focus on behavioural interviews, especially for internationals; this journey would not have been accomplished without the support and generosity of Career Development & the Alumni network. Special thanks to my career coaches.”
