

# UNDERGRADUATE STUDIES

The Mendoza Business Core provides you with a greater choice in individual courses so you can design a curriculum according to your personal academic interests and career aspirations. You also will have more opportunities to specialize in a secondary discipline, both in other colleges and within business, while maintaining the overall balance between liberal arts and business coursework.

The Core Curriculum requires 25.5 credits hours of Sequence One and Business Foundations Courses, and 9 credit hours of Business Broadening Courses, which must be taken in at least two different departments outside of your major. First-Year business students are expected to complete all of Sequence One and at least 6 credits of the Business Foundations Courses.

## SEQUENCE ONE:

- Principles of Microeconomics (3 cr., AP credit accepted)
- Elements of Calc I, Calc A or Calc I (3 cr., AP credit accepted)
